# MEDIA KIT

# DZone is a tech media publisher that delivers high value content to a global audience of technology professionals.

The DZone network combines focused technical topic portals known as Zones, along with in-depth publications and an expansive community of technology experts.

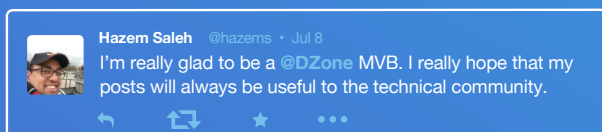

In 2015, DZone completely transformed to enhance both reader and customer experiences. Now built on the DZone TeamHub platform, DZone provides new features to drive community engagement, build a larger network of content contributors and experts, and gives readers new ways to interact with DZone content.

# DZone Delivers for Any and Every Marketing Goal

“DZone became a valuable source of traffic and new customers for JetBrains.

**Return of Ad Spend for current campaign exceeds 500%.”**

“DZone has helped us **reach an engaged community** of technical professionals by combining standard digital advertising offerings, such as display ads and sponsored links, **with high-value content, targeted emails, and thought leadership opportunities.**”

“**Our DZone Refcard was popular at this year’s JavaOne conference!** Attendees loved reading the *Continuous Delivery with Jenkins Workflow* Refcard after watching the demo. It will serve as a good jumpstart to automating their software delivery pipelines with Jenkins.”

“I commend DZone for their professionalism and enthusiasm. **The expertise that they bring to the table during our calls is always filled with great recommendations.** Every interaction that I have with the team - I am left with a high level of confidence that they will keep the ball rolling fast. They’ve come a long way and continue to impress.”

## DZONE:

# Trusted by Experts and Industry Leaders

“I enjoy contributing to DZone since I know that it’s the **go-to place for many developers** to get concise, authoritative info on important topics such as CI/CD, cloud and more.”

**ANDREW PHILLIPS**

XEBIA LABS VP OF DEVOPS STRATEGY

“I’ve been a reader and supporter of DZone and Javalobby since the early days, and I believe the technical community benefits greatly from DZone’s content. **Having strong content on DZone and building the audience will help make software engineers better at their jobs, and we’ll all benefit.**”

**DAVE FECAK**
